

Group number: 6

Team members: Sarah Fedorchak, Eshi Kohli, Sujitha Seenivasan, Yrone Umutesi

Name of project: BeanThere

Dependencies: Xcode 16.2+, Swift 6.1, abseil 1.2024072200.0, AppCheck 11.2.0, Firebase 11.9.0, GoogleAppMeasurement 11.9.0, GoogleDataTransport 10.1.0, GoogleUtilities 8.0.2, gRPC 1.69.0, GTMSessionFetcher 4.4.0, InteropForGoogle 101.0.0, leveldb 1.22.5, nanopb 2.390910.0, Promises 2.4.0, SwiftProtobuf 1.29.0

Special Instructions:

- o Use an iPhone 16 Pro Simulator
- o To test notifications, select “Every minute” from the picker.
- o To login with a test account use:
email: testaccount2@gmail.com
password: testaccount2

Feature	Description	Release Planned	Release Actual	Deviations (if any)	Who/Percentage Worked on
Login/Create Account	Allows users to create an account or login with an existing one.	Alpha	Alpha	None	Sujitha (100%)
Feed	Feed showing all of the current user’s friends’ most recent reviews in chronological order.	Beta	Beta	None	Sujitha (100%)
Coffee Search	Allows users to search for a coffee shop from our database.	Alpha	Alpha	Currently our search is limited to the coffee shops we retrieved using the Yelp API and stored in our database.	Sujitha (50%) Sarah (50%)
Café Profiles	Displays information about a café, along with any reviews, tags, and ratings left on it from other Beanthere users.	Alpha	Alpha	None	Sujitha (50%) Sarah (50%)
Add Review	Allows users to select a bean rating, tags, write notes, and upload images for their reviews.	Alpha	Alpha	None	Sujitha (100%)
Coffee Map	Displays a map with pins showing all of the coffee shops in our database. Also allows you to click on each pin to preview the café profile	Final	Final	None	Sujitha (100%)

	for that page.				
BrewLog	Displays all of the reviews a user has made on the coffee shops they have visited in the “Been” tab. The “Want To Try” table displays coffee shops user’s have saved for later. The “Recs” tab is recommendations for coffee shops based on where the user’s friends have been and the user has not.	Alpha	Alpha	-Removed additional recommendations on the “Been” and “Want to Try” tabs because it did not make sense for them to be there and have an entire tab “Recs” dedicated to it.	Sarah (100%)
User Profile/ Friends profile	<p>Page to see the users profile, their reviews, how many people they follow and followers and also be able to navigate to their brewlog (been, want to try and recs)</p> <p>For the friends profile the user can be able to request follow or unfollow the friend. And they can only view the friends (been, want to try)</p> <p>Comment pop Up (This feature is where users can be able to comment on their friends reviews)</p>	Beta / Final	Beta/Final	<ul style="list-style-type: none"> - Removed the sharing button on the user review - Removed the numbers of how many cafes are in your brewlog - Added comment pop Up 	Tesi (100%)
User Settings / edit user profile	Where the user can be able to see all their personal informations like email, name/username, and cities and edit them	Alpha	Alpha	<ul style="list-style-type: none"> - Added dark mode button later - Added notifications button later 	Tesi (100%)
Friend Requests	Allows users to view all of their friend requests and confirm or decline friend requests from other BeanThere users	Beta	Beta	None	Eshi (100%)
Friend Connect	Screen where users will be suggested to connect with other BeanThere users who are followed by users who the current user follows, and BeanThere users that are in the current user’s contacts. These suggested users can be follow requested directly on this screen.	Beta	Final	None	Eshi (100%)

Friend Search	From the “Friend Connect” screen, users can search for other users on BeanThere and visit their page from the search	Beta	Beta	Designed this new screen which was not accounted for during the Design phase of the project	Eshi (100%)
Followers / following screen	This is where users can be able to look at their followings and followers lists and be able to delete the ones they don’t want	Final	Final	- Added this feature	Tesi (100%)
Notifications	Allows users to enable daily notifications that will remind users to check out a coffee shop from their recommendations.	Final	Final	If a user doesn’t have any coffee shops in their ‘Want to try’ or ‘Recs’ pages of their BrewLog, their notification will show a message to add things instead.	Sujitha (100%)
Dark Mode	Allows users to switch between dark and light mode.	Final	Final	Missed adding this feature in the original design doc, but realized we needed it later.	Sarah (100%)
